FUTUR.E.S IN PARIS FESTIVAL

High attendance level: 22 000 visitors /3 days

Growing attractiveness: 14 new sponsors, 500 start-up applications (+50%)

Increasing influence thanks to strong links with major media: France info, Le Parisien, BFM Paris, RTL, 20 minutes..

FACTS & FIGURES

71% of the exhibitors reached their business goals: a business accelerator for professionals

80% of the audience declared they have learned something about innovation and digital

44% of them changed their perspective on the future

The 2017 edition confirms the festival's attractiveness

2017 edition sponsors

2018 EDITION

The accelerating pace of technological progress and the innovation demand are creating fears and uncertainties in organizations and among individuals.

Because we do not want to be passive in the digital transformation, Futur.e.s offers experiences to understand the implications of our technological choices, to appropriate the meaning of innovations and to co-construct the future with companies and innovators.

○ ○ ○ Futur.e.s in Paris

« You have the power to create
the future you want »

Amy Webb

Futur.e.s in Paris

A clear mission

EMERGENCE. CREATIVITY. DIVERSITY AND INCLUSIVENESS.

The festival will concentrate on raising awareness of digital trends and introducing collective creativity. The aim is to give everyone the means to co-construct with digital technology a humane and sustainable world.

Immersive journeys and labs to test,
bring out new ideas
and meet unrivalled innovators.

A new format

6 immersive courses designed to discover the key innovations that will shape the future

Local, regional, and international

Conferences and masterclasses

To learn in a privileged way from innovators in the world of research, business or creation

Labs

To crystallize what has been retained, learned from the journey, and to think collectively
